

# Darling Downs Zoo

Welcome to the....

Darling Downs Zoo is divided into separate Country Zones housing animals from Australia, South-East Asia, Africa & South America.

Although the zoo is constantly being developed it is our ultimate aim to house a representative collection of the mammal, bird & reptile life of each of those regions while specializing in, certain species of conservation significance from each region.

The zoo is privately owned by Steve & Stephanie Robinson who, between them, have over 80 years of animal keeping experience.

The development of the zoo has been financed entirely by the Robinson's and their supporters.

We now have over 140 species of animals giving us over 500 animals to feed!!

We are part of many breeding programs of Australian and exotic animals, eg. Tiger, Sri Lankan Leopard, Giraffe, Addax, Black Cockatoos & Macaws, including many off-display, such as Bilbies, Noisy Pittas & Regent Bowerbirds.

The zoo's continuing operation relies on the patronage of you - our visitors.

This will never be a huge zoo, but with your support, we are striving to make it one of the best.

What you see today is still a work in progress... We welcome the opportunity to discuss our plans with you and listen to your comments.
